SMOKY CHIMNEYS.

SUTER'S VENTILATING WIND-GUARD,

Is certain cure for Smoky Chimneys, and will effectually Ventilate Close Rooms at Public Meetings.

EXHIBITED AT THE GREAT EXHIBITION, 1851.

Price 15s. Made of strong Zinc, to fit 10-inch Chimney Pot, and made to any size or shape, at a small additional charge.

This Guard, from its peculiar construction and novel action, entirely prevents the external air entering the top of the Chimney, and exhausts the air in the Chimney, causing a continuous up draught; thereby perfectly ventilating any rooms or buildings where there is no fire, and effectually preventing the return of smoke into any room where there is a fire.

TESTIMONIAL.

"Dear Sirs, [illegible] 1852.

"The Wind-Guards which you have supplied us with for our premises under the Post Office Building, have given us great satisfaction; we should like some similar, manufactured of copper.

"(Signed) "E. BONDAR and Co."
